

A woman and a man are walking in a snowy mountain landscape. The woman in the foreground is wearing a blue quilted jacket, a grey beanie, and a scarf, looking off to the side with a smile. The man behind her is wearing a grey and blue quilted jacket and a black beanie, smiling at the camera. The background shows snow-covered mountains under a clear blue sky.

JACKETS & VESTS

We connect brands with people.
Our products create identity.

**JAMES &
NICHOLSON**
by daiber

ALL-WEATHER. EVERYDAY LIFE. ADVENTURE.

Jackets and vests for the new season impress with their flexibility. Not only are they weatherproof and customizable, they are equally at home at work or at leisure. From working hours to weekend adventures. From company events to festivals. From shopping to summit tours. Quality, fit, comfort and style always inspire! Let us inspire you on 80 pages on how to positively connect brands and people. Your colours and your logo, our jackets and vests – let's go.

PEOPLE & BRANDS

A wild and romantic location in the Kaunertal valley and a lovingly restored cultural monument: the Ögghof. Formerly a mountain farm, today a location for seminars and holidays in a breathtaking natural setting. We wanted to find out from Georg Praxmarer, the tenth-generation owner of the farm, what drives him - and what a corporate outfit for the Tyrolean must be able to do.

It is 9 a.m. when we arrive at Ögg-Hof and are welcomed by Georg Praxmarer and his team. We marvel open-mouthed at the farmyard, the panorama and the free-range chickens.

DAIBER: Wow, how idyllic!

GEORG PRAXMARER: Yes; we live and work in this wonderful scenery. I couldn't imagine anything better. Ögg-Hof itself is more than 600 years old and it has been family-owned for more than 250 years. The oldest parts date back to 1371.

JN741 and JN771 Knitted Hybrid Jacket: the hood makes all the difference

We are immediately recognised as Ögg-Hof". The employees also like to wear the outfit in private

DAIBER: But there is running water, isn't there?

GEORG PRAXMARER: ((laughs) Yes, meanwhile. And WIFI. You need that today. But we don't have a television or radio in the whole house. It was restored to its original condition in 2017, but we didn't want to turn it into a museum. We wanted it to be inhabited again. Our idea was to make the farm available for seminars with overnight accommodation. It is a really great place of power because it is simply so unspoilt.

DAIBER: What kind of guests come to you?

GEORG PRAXMARER: The seminars are often for senior management or physiotherapists with their therapy group. They take place in autumn and spring. In summer we rent out the farm as a holiday home. These are mostly families with grown-up children. They meet at Ögg-Hof for their holidays.

DAIBER: What do you value in your workwear?

GEORG PRAXMARER: First of all, it must be functional. And since we work with a lot of people every day, it needs to look a bit special. The quality and colour should also be right. Your workwear is not only functional, but also fashionable and great.

DAIBER: And how are the new outfits going down?

GEORG PRAXMARER: The combination of stylish and very practical is very good at work. My employees also wear the T-shirts and jackets in their free time. Hey, you work at Ögg-Hof, they have heard that a lot since you launched the new branding. My children and my wife are currently fighting over who gets which item.

DAIBER: Do you have a favourite style yourself?

GEORG PRAXMARER: Yes; the vest I am just wearing, JN768. I can wear it in the morning when the sun is shining and just wear a T-shirt underneath - and I'm still dressed super smart.

DAIBER: That's right, it looks good on you.

Final question: What motivates you?

GEORG PRAXMARER: It is particularly important to me to preserve this old tradition. I have travelled all over the world for work. But I have realised: Our region - so much is still true. And I believe that you can only appreciate that when you've been travelling.

Georg wears the JN1146 Hooded Softshell Jacket and the scarf MB7300 Winter X-Tube with logo embroidery

Organic preferred: 8002 T-shirt, organic cotton, with 3-colour transfer print

FROM PROMOTIONS TO DAY TRIPS

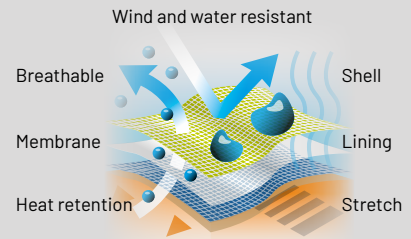

Softshell jackets are indispensable for anyone who works or enjoys the outdoors. These functional all-rounders with 2 or 3 layers protect against the cold, wind and rain, but thanks to their breathability, but don't make you sweat. Elasticated for freedom of movement, figure-accentuating and popular! The textile advertising ambassadors are suitable for the in-between season.

MB7142

SOFTSHELL

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

FROM CITY STROLLS TO TEAM BUILDING

Our hybrid jackets combine the best of two material worlds. Quilted sorona®AURA padding keeps the upper body warm. Combined with elasticated materials in the side and arm areas that provide freedom of movement. And easy to care for! Thanks to features such as under-panel zips, chin protection and a water-repellent finish, hybrids defy many weather conditions. An excellent team-building tool when embroidered.

FUNCTIONS & FEATURES

STANDARD 100 BY OEKO-TEX®

This standard guarantees that textile and non-textile product components pose no threat to health. The components of all the products of JAMES & NICHOLSON and myrtle beach, i.e. also all threads, buttons and other accessories, are tested for harmful substances and pose no threat to health.

RECYCLED POLYESTER

Collected plastic bottles are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production.

BIONIC-FINISH®ECO

BIONIC-FINISH®ECO was developed based on nature's example. „Learning from nature“: A wafer-thin crystalline structure protects the textile from water and dirt. BIONIC-FINISH®ECO protects people and nature.

SORONA AURA®

sorona®AURA fibers consist of 37% vegetable components, obtained from renewable raw materials. Garments with sorona® Aura offer an eco-friendly alternative with outstanding breathability, lightweight comfort and efficient heat retention. sorona®AURA offers the perfect mix of sustainability and performance.

SOFTSHELL

Softshell with TPU membrane consists of three layers. The microporous TPU membrane as the middle layer makes the material waterproof, windproof and breathable at the same time.

SEAMED TAPES

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 % water-proof.

BREATHABILITY/ PERMEABILITY TO VAPOUR

Functional clothing must ensure that perspiration is wicked away from the skin as quickly as possible and can evaporate. The water vapour permeability of a material is measured in grams per square metre in 24 hours (g/m²/24 h). The higher this value, the more breathable the textile is.

WATER COLUMN

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.
